

Greetings District 9

Living in the LAST THREE STEPS

A little over two years ago we produced an introduction to Steel on Steel workshop. Our goal was simple, to share the concept of this type of small group meeting and the hope that it might spark the formation of other such groups. (To date, there are two Steel on Steel groups that meet once a week.)

It has been suggested that we again visit this topic in a Workshop as collectively we have gained considerable experience and insights with this type of accountability group. We to wish to again share our experiences in the hope that others might enjoy the joys of spiritual growth gained from this type of small group meeting.

Date & Time: 2:00 PM - Oct. 12, 2024, (No AU Football this date.)

Location: Condon Hall, First Methodist Church, 117 S. 7th St., Opelika

We are the Workshop Committee of District 9. We prefer to think of ourselves as members of the Workshop Team, a team committed to producing meaningful events and workshops that both instruct, educate and strengthen the three legacies of unity, service and recovery.
